

When our house burned down, we decided that we would rebuild in the same location. We had insurance, but were very concerned whether it would be enough to build a new home. Nordenstrom Custom Homes was recommended to us. Given the financial situation, David explained how Nordenstrom Custom Homes could build the house. We agreed to the plan doing some of the work ourselves. We know if we had to do it again, we would hire Nordenstrom Custom Homes. Not only did we appreciate their skill in building, the time they spent answering our questions and instructing us; but also the personal attention they gave. Under the circumstances of losing our home, this added touch was so comforting.
